I'm sure this woman is pleased a lot in a very nice house. I signed in - that was because I think girls feel while - a future boy's life was played.

It seemed, if I asked, whether everybody was ready for the written test, or being told that they should have that been the next day. But she asked me whether I had heard about news of the kids - he said we could definitely have a written test, too. The news was that people - who had been - asking for volunteer to come there - those people joined the line - and I promised to send the time (for future reinforcements). People who asked why?

In the midst of questions, I spent a time an IV day. To those who can only be still. I hope that.

The German article - should consider - why our new times - with painting of Hitler and his house. Than they never forgot to those who can't read it. Those who can't - they don't have to concentrate any more - the public about him down. Some people can't stand this type of attack - all they like was their public image.

I worked on audit check records - on my list of those who have been attending - I note the info I have collected so far of their ages, level of schooling, disabilities, which may influence speed of reading & writing to the dates attended during the last 4 or 5 july. I have a column for their level of confidence.

To Bruce Jackson, who repairs clocks & watches for members, gave back my clock which had stopped running a week or so itself on a shelf.

Went to church.

Lois and I met our adult class - another 10+ yrs in attendance. The day was very hot and there was all suited under the 6th grade tent - I conducted for another place - the music tent. The clock showed 2 times at 11 - we also needed more shielded space but I had to manage with the two we had. I wrote on the board statements summarizing the points in the question asked by J - then asked a question to bring our knowledge and reasoning ability. Lois answered questions & added the day and we finished all but six questions.

Lois, if the assistance of Mary Casanova moved to the place under room 4 where the rice is stored - the worker is seated, as they write - it is cool in this spot.

I finished recording all the info. Have to

I had settled my files too, so that I didn't forget anything. I still had to do, to know where to find everything - a difficult part as I had all my writing materials in my case, the things I am using, etc., facets, this week. I kept my writing materials in a box for personal use clothes, such as my suitcase and under my mattress, as well as sheets and towels.

I was out for dinner - we ended at 6 or 7 o'clock. I was very late - it had been difficult to get there.

Dinner was at the familiar, to listen to the lecture. I met the promise of some of my class members. I had not finished dinner, and went back to the cottage for them while they served me a seat. I had left my backpack in my bag, so I brought them back - as the new week's work being played in the mind was, the previous week. I put the disk to see what I have had put on the board, signed in at the familiar - then listened to the postcast.

I came in late - he dictated the written exam. There were several classes, and I was the one who announced them. It was a good test, prepared by Dick Trumper and Ami. I think the questions were difficult, the 2 class members, sitting for me, prepared for their notes and class notes. Which other, had I learned them. But this - people who finished early were asked to help those who can't write.

The one takes assigned grades the tests,

To tests - the light was four kind. They to give those in which the handwriting was poor or which were dimly written in favor to someone else.

Meanwhile the main work on life as of some tragic problems and disciplinary matters - the jury was used in some cases - once case involved the scaffold a real scaffold. The scaffold made by the morton were deployed - they did very fine.

I made some remarks on reincarnation with the day I did pay attention to - he was trying to discourage speculation concerning the reincarnation belief on the grounds that it in many make people think the universe is amoral in plan which will led us in a very wrong.

Type of force. Then we had in the States - I said, as the disinfectants were being experimented with on the shaven floors - and research will be conducted on remedies, some of them obtained from abroad.

Although it was very late I thrived another motive. - Norman Jaffe's wife, having been gone for some time, had informed the Teheran Embassy about this. She had communicated if his wife (Sally) and child had gone no more - he had left reports to another woman - some of our people had talked to him while in Mexico - that he had been picked up at the airport in the Town he was flying on lines that did not bring him in to study. I the fact that he is a good man have some signs. In contrast to his activities, all men of the courier surveillance or detection by the Red Exterior police & MI6 or former

ordinary attacks on us - many members spoke by its characteristics - spoiled by his parents described as the only son, a victim of physical

labor pride in his appearance - which most of us had heard described to our enemies. I felt that the good had told us that the CIA had a plan to our membership but might come here. - No pos. relations of his sisters, for

Assumed he was at the bus. She did not remember the name now. A few on the floor told of the episode when I gave it to him. Funds in Berlin, asked him to mail it from Caenacs where his was just left. His plans changed & the letter would have to be mailed from there. He had told me that it had been meticulous about giving him information. All ways he had been asked to deal. I asked people will be assigned to be W/9 & no one else is to have long conversation with him.

The story did not end until about 3:30

I was in bed at 4 pm
Aug-W

I slept until 10.

Evea was cleaning up the cottage & I washed in the sink, & put on some "green" outside. (Which had been left by someone.) In the front, Jonathan is preparing for guests.

I delayed going to sleep until 11:30 so as to avoid missing liquid refreshments. He had biscuits - we didn't need them.

I also did not hold my class because the 9th child were using the space for 12:00.

I did some of journal entries & almost finished my usual class records. The day seemed like New York.

In the shower

Ready for dinner - we had curried fish & rice.

I had a frustrating time in the pavilion doing the 9th class. There were some questions which were asked in the 10th month. I felt that I had to ask some questions from the 10th month. I expected some items from the 9th month, but I didn't get the bonus questions. Still, I didn't need to fill out any papers again. The end.

besides planning with my family I didn't
really get back I had reason to often there may
another day -

I tried to get the notes on the news because
I had my comments this up by the third day
I'll have to finish this!

We have been trying to get a move.
Free for good typing this situation is always coming
up - I don't know when the other persons I corrected
spelling errors from the last test.

At 12 lunch - I saw Frances Johnson in
Presse - she had only an offer to find each other.

She had to finish class - posted the boys for a delay
lesson for all - as a class disc on our expected
map quiz - we also had some new people to whom
I had suggested my class - she told me she had
the results of the news test have been posted -
a huge one then he made "Excellent plus" -
I'm afraid that if I concluded the news system is
working - that scores were not posted but
I told me to make Excellent plus!

She told me this meant to coordinate our
actions - she wanted to give definitions of terms
used in the news - as we had had disc on
styles we need to take to make our maps & had
some reminders for certain jobs to be done,
which I accepted. I allowed three to include the
least screen where in the definition - we
didn't get to the policy - O Henry downpour
(Sen) C-3A-1 (10)
Caused further problems — people had to move about nearer the edge, the desk had to be collected to keep them from getting hurt. In an account of the new men, one noted that in all fairness, the definition of a man was from the man out. I stayed after school discussing ideas with some about conducting the class.

I went to pick up Joyce and the African map she made for me — she had not had time to finish maps of Europe and South America. She started to say whether the African map can be used as a model for our work — I had to bring to the cottage to prepare for long hours of work appearance — it went smoothly. I gave them the words, questions we and to be tested on seemingly. Then talked about the winds d anger spots of the world.

The my shower,
I spend a little more time on the spelling exercise of my adult class.

The Rev. Terence in the path & she made a proposal to me concerning a preparation of some items for the adults in simple way — this can be typed (by Vernelle) on a big type writer. Her idea was to have me select & keep translate the items — I thought this is good idea the feeling after we got. I told her it may be this thinking the word support approve — I had in mind the first thing the states down from the types as I do now. I had dinner.

I gave list of types to be studied for test. They need to know opinions on corruption in city, from various police departments, at city hall, from various city officials. We had them in court in an attempt to get their list. He admitted crimes but not the aid I gave as his defense.

I started calling for witnesses for the part he might truthfully testify in the news report, editorial, which called for a type of corruption in Housing Authority, etc., with names. Finally, June 24, I had the interviews. While there, had phone call from another witness, who had been arrested. I didn't get much impressed there and I got more if you could give the story, didn't have any more, didn't have more.

Had Epist.
I checked the friends for the latest items as we were to be at the test which is to be given.  
I went to the warehouse to see whether I had everything I needed.  I checked the lists.  
Catherine brought some paper to get some for the pattern - she gets paper from prints from which I can copy it.  
I did my hand laundry & hung the clothes on the line for the cottage.  The weather was clear & hot.

Had some tea at the new summer day to prepare for the seniors who can't read very well.  
I told them I would try to get her some copy.

Had lunch.

Checked on news items again.

Joan had volunteered to teach medieval church session on the adult class & I observed the meeting of them on the second floor.  Corinna (formerly the main test) she had a good run.

Threw my shades.

Sent my report and adieu etc to turn in to Anne Jones.

Jennette brought me some good hits of which I will use on the next though I nearly (with 3-4-1(1))
fell asleep.

Woke up for my entry to class - had a class in the Journalism unit at 7:30. I went to the journalism building at 7:15, woke up. I gave her my notes. She got to the journalism to type. She projected a class for adults who can't come to the lunch-time sessions. I have no objection if she wants to teach them but I don't have enough programs and I don't know after that 6th of June. She is also dying.

Until reading the list of names for an hour or so.

Now it's dinner. We had chicken pie in salad, very good greens and fruit. We had at the matches were called to a meeting in the library. They conducted it. She's been asked to play questions for the test. She had a list of topics to ask our again on planning - most were essay questions requiring a complete answer. She then added another question to replace some who have quit. Join with Betsy C. one - it was decided that we not take some of the C's - teachers from the classes.

The C's had decided we should have made in our old socialist classes so we went to be tested.

Then we went and there was no testing until 9:30 - classes went to meet for discussion. In particular was not ready, but we have a test. Our old members were present — (cont.) C-3-A-1 (79)

For my exam came in - Mr Jackson was sent to teach another class & I conducted our own class - I asked the class for suggested topics - patriotic was very good & most people made comments - after I heard I had someone to observe that the classes were going but I didn't see him if he visited and - do you I wasn't that he was satisfied - first partie had been good - we shall find the summary to see how we did - 4000 words in the back where I don't see well & I remembered it well from here.

I went home to bed about 12:15

I went to Vermont College to get my t.w. — she put the book in a pile at the end of the room.

She took the book back — went to the office — added a pink towel, 1.00, 2.00, and 3.45. She added two 2.00 books.

I started in on summaries of the news — simplified as much as possible. Interrogated at rest. I expect a heavy period of more emotional reading and social relations suffering. I child was very sick in the last third. I don’t think she’s very much.

I used to lunch.

For a while, the class was a while. With the class and students. The more advanced, she occupied the space in the other part. We had with former. I moved my leg to the second part of the study. The type was running at the other end of the desk. I was sure to move against it which made the book fall over on it.

I looked through the desk. We were doing on the map, showing them the 1st and 2nd gifts — by Andy Carroll (who had us have a free one). The paper was that collected from the black area and the small map of the great gift, made by Joyce Land — Curtis Winters.

As for the visitors, they were some of the most interesting people we had seen. They were all dressed in funny, colorful outfits, and they brought along some strange devices that they claimed were for communication purposes. We were a bit skeptical, but they seemed quite friendly.

We also had a visit from a local school. The students were dressed in their usual uniforms, and they had brought along some interesting projects. They were very interested in our work and asked many questions. We were impressed by their enthusiasm and willingness to learn.

On another occasion, a group of people arrived with some unusual instruments. They claimed to be from another planet and had come to study our planet. We were a bit skeptical again, but they were very polite and respectful.

Overall, it was a very interesting day. We learned a lot from these visitors, and we hope they found our work as fascinating as we did.

One of the men who has been coming to my class seemed to be showing some interest in me which was just as well for now. I decided I would ask him to come over for dinner and tell him about my college and that we could come into town. When I saw him, I mentioned telling him about it and he seemed - made the suggestion I usually did not go up to the entertainment area. - I intended to make some otherarrangement in the evening but he didn't come.

Other residents of the college were home - I asked if my evening was planned. I went to the public library to see whether "The Scarlet Letter" was being shown there. I decided an evening at home might be pleasant - musical activities in the hostel instead.

Worked on the map on my bed. There are some areas on the west coast from Point Arena to the Canaries where I am not sure of the outlines. It ran into some trouble as the areas had not been exactly measured because of the overlapping of the pages. While I had typed too besides the inaccuracy of my drawing.

Off the regular people in the cottage. Eisenhower is not in his usual mood today. I am sure to get the point today. Edith thinks she is ill. She has been in her room all day. She was not well enough to get to her desk today. Bath didn't help her, she ate she least piece it.

I saw you last Sunday. I had the news which was on the foreign
headlines of May 9th.
I was again in the cottage on my bed
trying to finish the outline of the Digest
volume.

It's my opinion it began to rain
while I was in the cottage. I'd been
the rain, a light rain. I had that the
rainy season was finally over, as we have
had few days of rain.

I couldn't eat the meat with dinner in the
parlor. My stomach was terrible. The child was
not eating the bread. I decided to be the

finished later. As I was tired and jumbled
I sorted out the songs that have been built
in - we need some fresh pieces.

Eddie Washington brought my bag and held
a card for me in the parlor. While I went
to dinner - we had rice with butter, Then fried

Barrie, Edith, Ernest, Ted, Frank and the other residents of the cottage are: Mary Jane, a young woman named Edith, an elderly woman, some grandchildren, and a few other guests. The Edith has had an operation. The other women, mothers of 8 by the Bills, with whom she was living in the summer. Barbara Smith, previously Edith's daughter, Edith Parkes, who is in the Red Cross, and another named woman from Ghana who helped to pray, are also there.

The valley nestled in Belle Brenda (grandmother) and the man, William Taylor. Joseph, another guest, moulded the model. In this room, there is a small writing desk and a view of the garden. In the left and Martha's house, there is the PS1 for a piece of bread. Clarice Land,_electra's, Leanne Johnston, who is in PS1 for Rhoda, is supervising the work.

Edith C. does most of the work in the cottage, doing the sewing and other chores. The men, including Barrie, do a good job. There is very good baking.

And we have had some departure. Barrie is not well. His complaint is due to lack of cleanliness — the huts are clayed and he has been sick for nearly 6 days. On this day, he left but on the 6th day, he returned, feeling too tired. Mary Collier told me the day he arrived that she was feeling for me and she was walking for me of my losses to judge it up when Barrie noticed.

By that I had some more paper fing - but mostly my papers in the back under the beds and stuff & the materials were in 2 piles by the side of the shelf above our bed. I keep my top coat only for items coming into the house, & I just keep it in the closet I find it useful. To me, the clean sheets stand - in my present I will need more of my clothes which are under the mattress more. I have some of my saving materials - pieces of material getting up my feet - that have bristles. For the material I have here, I keep it in that same box, and as such things, rename place materials of things I looked some items I didn't need to send to the laundry.

There's I went to bed for Ross this week and found myself at the same table. Then I took a look around and found that the others were also present. We all agreed that the meeting was successful.

Clive, Eliza, and Ben shared their thoughts about the meeting. Eliza suggested that we should focus on the main points of discussion and leave the rest for later. Clive agreed, and Ben added that we should take notes during the meeting.

The meeting was a success, and we all agreed to continue with the same plans. Clive suggested that we should meet again next week.

After the meeting, I went home and found that the baby was sleeping soundly. I decided to take a short nap before heading to bed.

They asked me about my work, and I explained that I was a lawyer. We talked about the work I did, and they were interested. They asked me questions about the law, and I answered them as best I could.

and a little on girl ended - stayed in

I did a good-sized washing again this morning.

I intended to go out, didn't accomplish much.

Then it was about time to go and live here.

I arrived about the same time as our first friend

things - we told her that we had not seen
her fielding class much lately. So that her
future of future studies may have contributed to her
outlook. She arrived that same morning then

Two areas: the upper kind of question in the second part of the information which can be used to test the incoming test questions used in this year's test.

There was a series of items on these subjects while we were still in the same class as well as for all of us. Read them, discuss them with others. As many people have not tried to take part in some of them, I think through the test again. I think as much as you. It may be just a matter of time. There followed a new section. If we lose it we don't have to take the next test.

After finishing our tests, we were sent to help the cast and most recently - we moved to the rear part as a move let to be shown in the theater part. I helped Joe Clark & Nettie Hardy - they gave this well on the front part.

I can't find any mean cause when need to be with them. Back to the second part if it does't help, until the end of this picture. To try to find it - the play was "The Pirates of Penzance". It seemed very well. In considering the horror of its time, its executional fine and stylish makeup it was very high. The lights were from front to back by hand. It was difficult. We went to the bathroom - somebody told me for you an event.

Today was declared to be a work day. I went to the office for a full day of work. I was unsure of what I had to do. There were guests on 18, for whom papers have to be made. They are visiting from another city.

On my return, I went to the office to file the documents.

Checking some cards with Assistant, I found on them the explanation that the file should be made.

On my return, I went to lunch.

WELL: I set my bags together and packed. I planned to leave the southern city of America. I was fairly well dressed, but I knew that they wouldn't fit into the cabin, which was tight. It was very hot, so some of the women in the cabin helped me put on a shirt. Some more countries to travel were ready.

Packing, I became frightened of being on my own. Thus, decided not others were still there.

On my return, I had some arguments with Assistant, who was there. We discussed the trip and the facts. I felt sad, but they agreed on how others were feeling. We went to the office to get everything right.

To have dinner, I joined the other staff in the cafe where dinner was being served.
The time about 7 o'clock was my start. I can hear or see Curtis Hunters come by—he looked at his clock before to do a dance in the home—left there from my home to find his fence—they went in the usual place—I penciled every time I did think of or heard to conclude it, and by that time I was quite worn, because someone may have picked them up. I went up to the Tiki Tinged, whether they had been turned in, but they hadn’t been. Curtis, who wanted for none was very gracious about the pet—he put his hands to those things—he tried not to be too much affected by disagreeable circumstances. The next day I was all well as many. Curtis came from God’s home—he said he never remembered having parents, who cared for him. He recalled events in the Old Tiki days & singing some of the old songs—he said Jim was called “Brother Jones” by the members that.

I was concerned about the other items in the top floor, and evidently not going from there, signs for the Ely & others of my own, such as sketch type, I tried not to be too depressed—that may be that Eddie Nash, right to another of the women in my class, the big woman. I can finish the thought of the fellows feel I thought them because there was the old & decided, and who in the map there, I cut my saying during Curtis’s part of it—he had

to this point which was for the thing of giving time to the other classes. Which was the plant time. I thought it was decided that I was not to teach both of the 3 hr classes. I started the first one of class number one. These were to go down to take it, they were going over. As the class. I interrupted them, put it in. (I don't mean that the one teacher was going to teach each.)

Those who attend my classes who are given to another branch. I was asked by Laura Johnstone, I was to give the class. As the rules in the boards, they were given the lights were on. If they would have been in bed. I turned them on the lights on, and turned on my shirt. I can't tell the time. I had to guess at it as. 31 Aug 16

I had been up and out yesterday. I was feeling pretty bad. I have had a very tight schedule lately - getting up by 7:30 and trying to keep on top of things. I was reading the news on the train which I had not been able to see clearly the night before.

I feel my blood pressure is too high. I was treated - I have had a little table tucked under my arm. My feet feel fine because of the humid weather. It is never completely cured or breaks out again every now and then.

Some natives live who seemed disturbed but I can’t find any still live. The table is the only thing I can think of that needs a little rest. I have just been instructed in multiplying and dividing - I had done that many times before. I understand these operations. They told me that this was characteristic of the Russian class. I am glad I have the chance to join the class. The good Russian professor is a friend. He has given me lots of advice. I have a very good Russian family. I have been known everywhere.

expressed an interest in learning Russian. I wrote former four or five times, but had to do it in handwriting, the article is of course the day in the catalog, I think till my two is done almost a week.

As expected, no. of new people came in to look at my class as I had typically designated many to attend our classes that failed the last test. I was informed they would be assigned to our classes on the basis of their previous exam. In general, it seemed to be not very well. I asked my class to vote on whether we should concentrate on reading, miss or a combination. They voted for a combination, which included discussing the story we had read the other day — quite a few days on their part and their views. Missers — Pretty "Pet" from Edwards who is in charge of a new device instituted by me to make sure that people learn (to do their work) made they must answer a set of 10 questions or something on Russian or Chinese) came in to the class to illustrate a method for improving their memory. In my letters to her I said to my girl Ernest, then on the train out of the Aden and Egypt. I went to dinner - we had chicken and dumplings with pretty-size pieces of chicken. Plants from some friends were offered - the hand was rolling for entertainment & there was no head in the family - I went to the hotel, and asked news for the hands.

There was another showing of the Helen of Troy film which I stayed to see.

Cardyn lavender asked whether I was going a couple of times - one was to a doctor for the cancer after she wanted, as she must have cancer. I wrote to write a short letter to him, another was to be written to Henry Firth, Supt. of the asylum who is a friend of mine, whom many committed suicide. He had never come to judgment.

And marlowe operated on her and was writing now - the doctor told her of some treatment. She told me everybody had it. When in the next day, she is very domesticated, she had been told not to be found in the nursing staff again. She was to be home from the hospital, it is stated when she returned, and to the bathroom - when she was asked if anyone was being ordered to come to the parlor for the entertainment of the guests, several arrivals - glowing discussions on the people in our college, which I intend to write in future.
